## Warranties and Liability

This website and the information contained throughout are provided as is, without any representations or warranties, express or implied. We make no representations or warranties in relation to this website.

Nothing on this website constitutes, or is meant to constitute, advice of any kind. If you require advice in relation to any matter you should consult an appropriately qualified professional.

The NHICC (National Home Inspector Certification Council), and the Directors will not be liable to you (whether under the law of contract, the law of torts or otherwise) in relation to this website for any direct, indirect, special or consequential loss; or for any personal or business losses, loss of revenue, income, profits or anticipated savings, loss of contracts or business relationships, loss of reputation or goodwill, or loss or corruption of information or data.

Nothing in this disclaimer will exclude or limit any warranty implied by law that it would be unlawful to exclude or limit; and nothing in this disclaimer will exclude or limit our liability in respect of any matter which it would be illegal or unlawful to exclude or limit, or to attempt or declare to exclude or limit, our liability.

## Privacy

This privacy statement is posted in order to demonstrate our firm commitment to privacy. All names are held confidential and intended to identify those persons conducting business with our services.

**Cookies:** We do not compile information on IP addresses.

**Links:** Our web site and related documents may contain links to external web sites that are not within our control. If you decide to use any of these external links, you will be connected to a site not covered by our privacy policies. We recommend that you read their individual privacy statements, since they may differ from ours.

**Security:** We exercise care and diligence in managing, transmitting and securing personal information once we receive it. Your personal information is protected by safeguards that are appropriate to the sensitivity of the information and are aligned with currently available security technology.
